

POWER PERFECT BOX

Solves "Smart Meter" Issues

- *Protect Your Home & Privacy*
- *Reduce ElectroMagnetic Fields*
- *Reduce Smart Meter Harmonics*
- *Improve Efficiency & Reduce Usage*
- *Protect Electronics & Equipment*

Residential and Commercial
Condition Your Entire Electrical System!
Easy Installation!

POWER PERFECT BOX

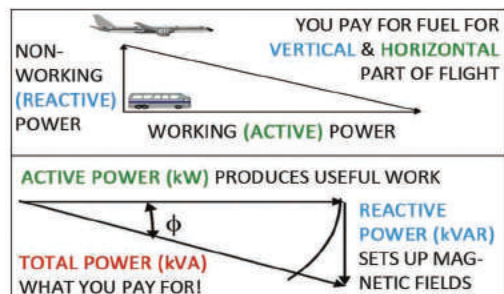

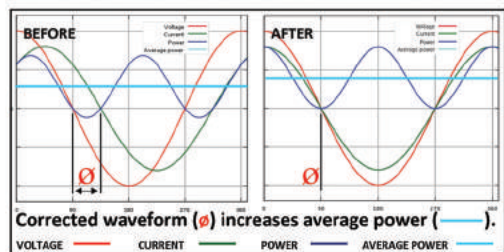

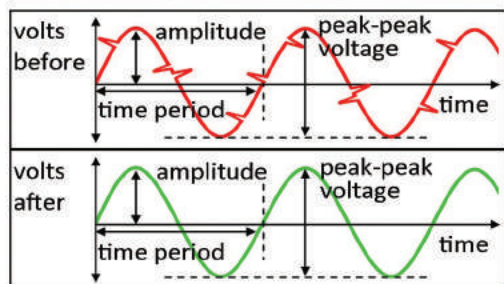

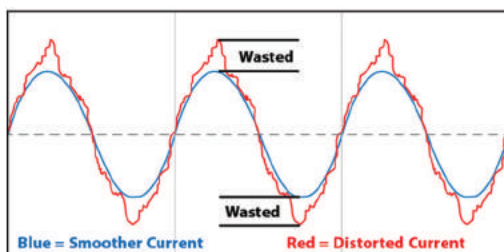

A Proven Solution For Smart Meters

A significant amount of evidence exists that raises the following concerns and issues resulting from the installation of a smart meter:

- Introduction of harmonics into the electrical system can result in inefficient power usage and problems with modern electronics
- Increased EMF radiation being emitted by the smart meter and electrical system raises potentially serious health issues
- Increased potential for invasion of privacy
- Increases in electric charges

Installing a Power Perfect Box will help to protect your privacy • Reduce potentially harmful EMF radiation • Safeguard your electronics • Improve audio/video clarity in media equipment • Extend the life of your appliances • Save money on your electric bill!

Satic's Power Perfect Box installs directly at the breaker panel and provides more than protection of your privacy and better health. It will also provide line conditioning, surge protection, phase correction and harmonics reduction.

- **Electromagnetic Field Reduction:**
 - Creating a safer, healthier environment
- **Harmonics Filtration:**
 - Provides cleaner Power
 - Protects your privacy
- **Electrical Noise Reduction:**
 - Nano-surges degrade TV screen quality.
 - Now see picture-perfect
 - Nano-surges also degrade audio quality.
 - Now hear pitch-perfect sound
- **Voltage Regulation:**
 - Surge protection for your whole system!
- **Phase Correction:**
 - Increased efficiency
 - Increased performance
- **Reduced Electrical Consumption:**
 - Cooler equipment & electronics
 - Longer lifetime
 - Lower utility bill
