

A CRYPTOMINING SOLUTION

- *Filter Harmonics & Dirty Electricity*
- *Provide Surge Protection*
- *Protect Servers and Data Storage*
- *Increase Reliability*
- *Reduce Overall Energy Costs*
- *Prolong Equipment Life*

Protect Your Investment!
Condition the Power for your System
Easy Installation

POWER PERFECT BOX

The Satic Power Perfect Box installs directly at the breaker panel to protect your Cryptomining system while also providing line conditioning, surge protection, phase correction and harmonics reduction for your entire home or business.

Filter out harmful harmonics and dirty energy • eliminate harmful voltage distortions • increase reliability • extend the life of server, storage and network equipment and save money on your electric bill!

- **Reduced Electrical Consumption:**
 - Equipment runs more efficiently
- **Electromagnetic Interference Reduction:**
 - Prevent data processing errors and losses
- **Voltage Regulation:**
 - Surge protection for your whole system
- **Dirty Electricity Elimination:**
 - Reduce heat from unusable power
- **Phase Correction:**
 - Decrease power requirements
- **Harmonics Filtration:**
 - Provide cleaner Power
